1. Прочитай названия чисел в столбиках. Какая часть у слов в каждой паре произносится одинаково? Какая часть слов записана в транскрипции?

[ti:n]	13	14	15	16	17	18	19
[ti]	30	40	50	60	70	80	90

2. Прочитай рассказ Леры. Где она проводит каникулы?

My grandma lives in a small village. The village is not far from Moscow. There's a big river in the village and there's a swimming pool near my grandmother's house. I can't swim in the river but I can swim in the swimming pool.

Look at my picture. I'm having a lovely holiday in the village. The weather is hot and sunny. My grandma's got a nice garden. You can see a lot of beautiful flowers in the garden. My favourite flowers are roses. I've got a dog. The dog's name is Pushok. He can't climb trees but he can swim. I can play with him in the garden and I can swim with him in the swimming pool.

3. Какие существительные употребляются в рассказе Леры с артиклем **a**, а какие — с **the**?

4. Рассмотрите рисунок Леры. Задайте друг другу эти вопросы и придумайте свои.

What's this?

How many flowers are there in the garden?

Can Lera swim in the river?

Has she got a dog?
